Meeting agenda - Please call me if you would like to add any other items to the agenda.

Final Technical Memorandum No. 4 - Pesticides - We have revised the technical memo to incorporate comments we received at a December 27, 1994 meeting with John Roberts from the California Rice Industry Association and Richard Golb of the Northern California Water Association. The changes made to the technical memorandum include discussions of data and studies completed in 1994, less detailed discussions of specific rice pesticides, and more information on other pesticides used in the Central Valley. We have invited John and Richard to join us for the PAC meeting.

The PAC meeting will be devoted to a discussion of your comments on the draft project report. If you have any questions prior to the meeting, please call me at (916) 736-3713.
